Bobby's CRASH

School Presentation Request & Approval Form

Program Overview
Program Title: Bobby's Crash: Real-World Consequences of Everyday Driving Choices
Presented By: Bobby's Crash Foundation
Program Length: 45–60 minutes
Program Type: Educational presentation / assembly / classroom session

Target Audiences:
- Middle school (age-appropriate version)
- High school
- Driver education classes
- Parent and community education events

Program Purpose
Bobby's Crash Foundation provides traffic safety education designed to help students understand how everyday driving decisions can have lifelong consequences.

The program focuses on:
- Safe driving behaviors
- Personal responsibility
- Peer influence and decision-making
- Injury prevention
- Respect for life

The presentation uses real-world experience and visual learning to reinforce classroom instruction and promote safer choices among young drivers.

Program Description
The Bobby's Crash presentation combines:
- Facilitated discussion
- Personal narrative
- Age-appropriate safety education
- Visual demonstration using a non-operational, crash-involved vehicle

The vehicle is transported to the school site on a trailer and used strictly as a static visual teaching tool. Students do not touch, enter, or interact physically with the vehicle. **No reenactments, simulations, or graphic content are included.**

Educational Topics Covered
Topics may include:
- Distracted driving (cell phone use)
- Speed and risk perception
- Seatbelt use
- Impaired driving
- Peer pressure
- Consequences of unsafe choices
- Long-term physical, emotional, and family impacts of crashes

Content is tailored to the age group and coordinated with school staff.

Student Safety & Appropriateness

Bobby's Crash Foundation follows trauma-informed and student-centered practices.
Safeguards include:
- No graphic images or videos
- No physical interaction with the vehicle
- Clear safety perimeter around the display
- School staff present at all times
- Students may opt out at school discretion
- Respectful and non-judgmental presentation style

The program emphasizes education, prevention, and accountability—not blame or shock value.

Supervision & School Responsibilities

To ensure student safety and appropriate conduct:
- A school administrator or designated staff member must be present during the presentation
- School staff maintain responsibility for student supervision and discipline
- The presentation location will be agreed upon in advance
- Emergency procedures follow school policies

Insurance & Liability

Bobby's Crash Foundation maintains appropriate liability insurance coverage for its activities.
- Certificates of Insurance (COI) are available upon request
- Coverage includes general liability and event-related risk
- The vehicle display is static and secured at all times

The Foundation works cooperatively with school administrators to meet district requirements.

Logistics & Site Requirements

Space Needed:
- Outdoor area (parking lot or similar) for vehicle display
- Indoor space for presentation (auditorium, gym, classroom)

Time Required:
- 30 minutes setup | 45–60 minute presentation | 30 minutes teardown

Electrical Needs:
Outlet for sound and or video system, or access to sound or video system.

Weather Plan:
Alternative indoor-only presentation available if needed.

Cost & Fees

There is no mandatory fee for the presentation. No student is charged to attend.
Schools may choose to:
- Make a voluntary donation
- Partner through sponsorship
- Invite community support

Scheduling & Requests

To request a presentation, schools may:
- Complete the online request form at bobbyscrash.org
- Contact the Foundation directly

Requests are scheduled based on availability and location.
